THE OVERLAP GRIP

H. L. Oatman

The hands play a very important part in the golf swing. Every movement that the arms and wrists make are transmitted thru the hands; therefore the hands must be in the correct position. The position of the hands must be natural. Let your arms hang limply at your side and you will find that your hands hang inward. Move your left arm to the front of you and try gripping the club from the forefinger to the palm of your hand, with your hand in the same position it was at your side. Then move your right arm the same as you did your left, and grip the club in the fingers, with the little finger of left hand, overlapping the forefinger of the right. You will find that gripping the club with the fingers of the right hand, leaves a "pocket" into which you insert your left thumb. With your hands in this position, you will be able to move your wrists and arms without any tension of the muscles.

Over 95% of the best golfers in the world use this grip and is really the only orthodox grip.

NEW BALL PLAYER
SIGNS WITH CH'STON

Charleston, July 1.—The Charleston Cardinals infield will be strengthened as Bert Steely, formerly of Brinkley, Ark., has moved to Charleston and will play with the locals. He has been playing with the Brinkley team that has won 6 out of their 8 games this season and was the leading hitter of the nine, batting .82 for the eight games.

One of the big features of his hitting was his extra base blows, getting only three singles out of his hits. His hits include one home run, the rest being doubles and triples.

SIKESTON LADIES
IN CAR WRECK

While returning from Walnut Ridge, Ark., Tuesday afternoon, where they had been to visit the Kiersky family, Mrs. John Albritton and Miss Mildred Arbaugh were injured in a car wreck near Cardwell, in Dunklin County.

It seems there is a 9-foot concrete slab and a 9-foot gravel road along this section of the highway and Mrs. Albritton honked her horn for a car just in front of her to pull out so she could pass. They did, but coming from the other direction was another car and neither had time to avoid a head-on collision.

Mrs. Albritton was cut about the upper and lower arm by glass from the windshield, while Miss Arbaugh suffered only from minor bruises and shock. A physician from Cardwell gave first aid and the ladies were sent to their homes in Sikeston.

The Jack Matthews wrecker was sent after the car which was considerably damaged.

McDonald-Shirk
Wedding June 25
In Oklahoma

According to the Holdenville, Oklahoma Daily, Miss Lora E. McDonald and Dr. B. B. Shirk, both of Holdenville, were united in marriage, Sunday evening, June 25, at the home of Mr. J. B. Campbell, of 408 North Bullitt street. Rev. J. E. Kirk read the solemn marriage ceremony of the Baptist church and pronounced them man and wife.

Mrs. Shirk is a registered nurse and member of National League of Nursing Education. Six months preceding the death of Mrs. J. B. Campbell, she attended Mrs. Campbell, as nurse and companion. Mrs. Campbell had planned to have this marriage take place at her home, and had expected to be present. When she learned that this was not to be, she requested that the marriage take place at her home, after her death.

Only a few of the intimate friends of the bride and groom witnessed the ceremony. Mrs. Ocie Heady was matron of honor, and J. B. Campbell attended the groom. The wedding march was played by Miss Dorothy Kirk. The home of Mr. Campbell was prettily decorated for the occasion. Green and white was the color scheme throughout.

The bride was dressed in white georgette and carried a beautiful bouquet of white gladioli. The matron of honor was dressed in white georgette, and carried a bouquet of pink gladioli. After the ceremony an ice course was served by the hostess, Miss Catherine Campbell, assisted by her aunt, Mrs. J. T. H. Lipscomb of San Antonio, Texas, and Miss Opal Garrett of Shawnee.

Dr. and Mrs. Shirk will remain in Holdenville for the present, taking their vacation and wedding trip in July, when they will visit relatives in Missouri and Iowa, and attend the World's Fair at Chicago. They will return to Holdenville and make this their permanent home, and will be at home to their friends at 312 North Bullitt street.

DR. C. D. HARRIS OF MORLEY DIES SUDDENLY TUES.

Morley, July 5.—Dr. Clarence D. Harris was born at Morley, January 6, 1875 and died July 4, 1933, age 58 years, 5 months and 28 days. He was the second son of Mr. and Mrs. Van Harris, who were in the general merchandise business here for many years. Dr. Harris was converted while in his teens and joined the Baptist church later, becoming a Deacon, an office he held until his death.

He was married March 1, 1896 to Miss Mary Howle and to the union five children were born: Dr. Harold Harris of Troy, Mo., Mrs. Ruth Finney of Morley, Jim Van Harris of Troy, Mrs. Mamie Kilmer of Dexter and C. D. Harris, Jr., of Morley. Three sisters also survive: Mrs. Sterling Marshall of Marshall, Mo., Mrs. Lee Wellman of Cape Girardeau and Mrs. M. D. Mayfield of Leachville, Ark., and seven grandchildren.

Dr. Harris owned the Morley Drug Store, an interest in the Emerson-Smith Gin Co., and some land. He has been a member of the Masonic Lodge and was a leader in his town and community, a man who will be sadly missed by his neighbors and friends.

The funeral was held at the Baptist church Thursday, June 6, with the pastor, Rev. J. W. Jeffries, in charge. Burial in Morley cemetery.

OLD KROGER STORE
HAS NEW CLERK

Jimmie Connis, known to many Sikeston patrons as a clerk at the Russell Walker Kroger Store, has recently been transferred to Doniphan, and Robert Stovall, former Doniphan clerk, has been sent to this place.

REGULAR MEETING
OF CITY COUNCIL

Monday evening was the regular meeting of the City Council. Regular routine business was transacted, report of committees, bills presented and allowed. No excitement of any sort and Council adjourned.

POLICE COURT

Ronel Huey was picked up by Deputy Sheriff Shuffitt for violating his parole and is held in jail. He was charged originally with theft. Madison Riddle, white, Lee Williams and Gerard Hunt, colored, are in jail charged with possession of liquor. A hearing before Judge Myers will be given Friday.

The raw citizen soldiery of Canada played a decisive part against the professional armies of Central Europe in several battles of the World War.

FIRE LOSS PER
CAPITA LAST YEAR
PLACED AT \$3.26

During 1932, the national fire loss amounted to about \$406,885,000. This was a decrease of approximately \$45,000,000 as compared with the previous year. However, as a committee of the National Board of Fire Underwriters recently pointed out, viewed in terms of actual value, based on the commodity price index, losses in realty increased by almost \$5,000,000. In other words the decrease in fire loss was less than the drop in value of the property destroyed.

Fire remains one of our most pressing problems. In 1932 the destruction amounted to \$3.26 per capita, and in some cities it reached a figure of more than \$14 for each resident. It is an intolerable drain on national resources; at this time, especially, it is a barrier in the path of recovery.

As a matter of fact, the \$400,000,000 direct loss is the least of it. The indirect loss is several times as great. Every time a place of business burns, men and women are thrown out of work. Their purchasing power drops. The whole community feels it. Taxes which would normally be paid, are lost. There are cases on record where progress in whole towns has come to an end because of a single fire.

The National Board estimates that 2 per cent of fire loss is preventable. Some authorities place the preventable loss as high as 80 per cent. It should be the objective of every citizen to make his property—whether it is a great factory or a 2-room bungalow—as safe from fire as is scientifically possible.

Local Juniors Defeated Sunday By Oran Nine

The Sikeston Juniors suffered a 8 to 6 defeat at the hands of the Oran nine on the local diamond Sunday afternoon in an unusually slow game. The first part of the game was exceedingly slow, with numerous errors on the parts of both teams, but during the last half the players had become "warmed up" and the scoring began.

The Oran team, however, succeeded in sending more men to the home plate defeating the local nine by two points. This was the first defeat suffered by the Sikeston boys, who thus far had won two games in the Scott County baseball league.

Nine Arrested For Improper Auto Licenses

Monday and Tuesday were busy days for Highway Troopers Dece and Tandy, who arrested nine persons operating automobiles with improved licenses. In each case the law violator was charged a five dollar fine and cost, the total cost amounting to \$13.60. Those who were arrested were:

Clara Fry, Caruthersville, using license issued for a T Model Ford costing \$10.50, on a Chevrolet car which requires a \$16.50 license. Joe Copeland, Steele, using Arkansas license. Lam Lane, New Madrid, no license. J. H. Cecil, Steele, using borrowed license. C. Wilson, Kennett, borrowed license. C. Bakke, Kennett, borrowed license. C. Wilburn, Kennett, borrowed license. K. Mullen, Kennett, license not transferred. Wilbur Gullett, Parma, borrowed license.

"Tin Woodsman"

NICK CHOPPER, the "Tin Woodsman," well known to readers of the famous Oz books, is greeting thousands of little visitors to Enchanted Island, the children's paradise at a Century of Progress. No longer is Nick bothered by rusting joints, for, like the other figures on the island, the "Tin Woodsman" is made of pressed wood. Behind him is the picture of the "Scarecrow."

IN MEMORIAM

In loving memory of our dear friend, Bertie Freeland Newton, who departed this life one year ago July 4, 1932:
Peaceful be thy silent slumber
Peaceful in thy grave so low
Thou no more will join our number

Thou no more our sorrow know.
Yet again we hope to meet thee
When the day of life is fled
And in heaven with joy to greet thee
Where no farewell tears are shed.
Missed by a friend,

Grabs Wheel of Car—Woman Dies in Wreck

Fredericktown, July 5.—On her way to Ironton with friends to attend a Baptist service and reunion Tuesday, Mrs. Stella Van Nees of Frankfort, Mo., was fatally injured when the automobile in which they were riding went off Highway 61, a half mile north of Mine La Motte.

Three others riding in the car said when the machine swerved on the highway Mrs. Van Nees grabbed the steering wheel, and in the confusion the car went off the road. L. L. Lier of Center was driving. He and Mrs. Lier were painfully cut and bruised, but Mrs. D. C. Miller, also in the machine, escaped almost unhurt.

The accident happened at 9:15 a. m. and Mrs. Van Nees died 45 minutes later, of a broken neck, at the office of the Madison County coroner, Dr. W. Harry Barron in Fredericktown. The body was taken Tuesday night to Frankfort and burial will be there.

EMERGENCY HOSPITAL

Mrs. W. A. Hennecke of Matthews who has been a patient in the hospital for the past few weeks following a major operation, is recuperating nicely.

Henry LaMastur of New Madrid, who has been receiving treatment for a broken leg for the past several days, is reported as getting along nicely.

Mrs. Elizabeth Quettermous of Bertrand an appendicitis patient, was released, Wednesday.

Mrs. Bill Pratt entered the hospital Sunday for treatment. Her condition is satisfactory.

Mrs. Harry Hambrick, who Monday morning underwent a major operation, is doing nicely.

The condition of Marvin Hensea, operated on last Wednesday night for appendicitis, is satisfactory.

LEE WILSON'S ADVICE

R. E. Lee Wilson, of Wilson, Ark., is the largest individual cotton grower in the world. He achieved this distinction because of what he knows about raising cotton. If anyone thinks he knows more about cotton production than Lee Wilson, let him prove his faith by his works.

Mr. Wilson tells us that failure to accept the government's proposed cotton acreage reduction will result in cotton selling at 5 or 6 cents a pound in a short while and absolute ruin for the South.

Mr. Wilson has more at stake than any other cotton grower. He proposes to reduce his cotton crop 7000 acres. He estimates his reduction at 300 pounds of lint cotton per acre. His five-year average is 330 pounds an acre.

Unless 10,000,000 acres are committed to the government's plan, the farmers of the South will have to work out their own salvation, confronted with the prospect of 5-cent cotton, and poverty.

Ten million acres eliminated from production will bring an average of \$9 an acre. This means \$90,000,000 in cold cash handed over to the southern farmers immediately.

There is an option on the average yield at 6 cents a pound for what they grow up. It is estimated that 10,000,000 abandoned acres will produce 3,000,000 bales, with an average of 500 pounds to the bale. There is a profit on this of 6 cents a pound. This will produce another \$90,000,000.

These figures do not contemplate enhanced value of the crop produced from the reduced acreage. It means a minimum increase of five cents a pound. It would be folly to anticipate the maximum increase.

This is no time for the farmer to quibble over the difference between a "five-year average" and what he thinks is "normal". The farmer who takes issue with the plan is trying to do one or two things. He is endeavoring to get the government to concede a larger yield than he is entitled to have if he stays out that those who go in will enable him to profit at their expense.

This is a time for plain speaking. The farmers should see to it that no one of their number is permitted to profiteer on the government if he signs up or profiteer on his neighbors by staying out.—Commercial Appeal.

Be less ashamed to confess thy ignorance than, by holding a foolish argument, to betray it.—Eliz. Joceline.

LIONS CONSIDER PLAN FOR MORE CHARITY WORK

The regular mid-week luncheon of the Sikeston Lions Club was held at a meeting held at the Court House in Benton, Wednesday evening, it was found 80 per cent of the cotton acreage to be plowed up in Scott County had been signed.

The committees in charge had run out of blanks, but expecting a new supply in every mail.

It is not advisable to destroy any of the growing cotton until it is certain the required acreage is signed up.

It is reported that one or two farmers who have signed the offer to enter into a cotton reduction contract with the Secretary of Agriculture have already plowed up the cotton covered by the offer, and that others are contemplating no further cultivation of the cotton offered.

The extension office wants to issue this definite fact and warning. This cotton is not sold to the Secretary of Agriculture that your offer has been accepted. Notice of such acceptance are not likely to be received before July 8 or 10 and maybe considerably later. We strongly recommend that farmers offering cotton under these contracts continue to cultivate their cotton just the same as if the offer had not been made, in order that the crop will not be reduced by lack of cultivation if the offer is not accepted.

Where the cotton grower intends to plant corn, if the cotton offer is accepted, he could after working out his cotton, the latter part of this week plant corn in the middle. By doing, if the cotton is accepted, his corn would be started a week earlier, and if the cotton is not accepted the farmer is out only the labor and seed.

CHARLESTON LOSES TO MOUNDS, ILL. 10-0

Charleston, July 4.—The Charleston Cardinals lost a poorly played game this afternoon to the visiting Roxys of Mounds, Ill., by a score of 10-0. This was Charleston's first shutout of the season, and made their record stand at 8 victories and 3 defeats. The Cardinals won over the Roxys' last week, 7-6 in ten innings. Ault, pitching for Charleston for eight innings, allowed 10 hits and the visitors were aided by 6 Charleston errors. Kennedy allowed the Charleston team but 6 hits and was in danger of being scored upon before the ninth, when two straight singles after one was out put runner on third and second, but forced one batter to ground out and the other to fly out. Kennedy struck out but 3 men while Ault struck out 7. Turner, Mounds catcher, threw out 4 men stealing second. Garrett, Mounds second sacker, did something unusual today, taking 10 putouts and handling 5 assists at the midway.

Titus, Mounds left fielder, doubled twice and singled once for the hitting honors. Skiles, Mounds first sacker, doubled and singled and Hudson, Charleston left gardener, singled twice for second honors.

Mounds scored twice in the second frame on a batter hit by a pitched ball, a double and a single. In the sixth the Roxys added 5 more on 4 hits, one a double, and three Charleston errors. The last three were added in the eighth, a single, double and two errors doing the dirty work.

Charleston will play West Frankfort, Ill., next Sunday, July 9.

There was a wise and noble Cock who crowed each morn at four o'clock, And advertised to all around Exactly where he could be found. Now every biddy in that flock Would steal away and meet that Cock.

The other roosters sure got sore, But he only advertised the more, And all the hens with any vim Were trying to make a date with him.

So here's a tip if you are wise— Things come to those who ADVERTISE.

It is said that members of the Senate consumed 5000 aspirin tablets at the expense of the taxpayer during the past year. But just think how many aspirin tablets the taxpayers had to consume because of the Senate.

80 PER CENT OF COTTON QUOTO SIGNED UP

A telephone message from R. L. Furry, County Farm Adviser, says at a meeting held at the Court House in Benton, Wednesday evening, it was found 80 per cent of the cotton acreage to be plowed up in Scott County had been signed.

The committees in charge had run out of blanks, but expecting a new supply in every mail.

It is not advisable to destroy any of the growing cotton until it is certain the required acreage is signed up.

Charleston Loses to Union City

Charleston, July 3.—The Charleston Cardinals journeyed to Union City, Tenn., yesterday and lost a bitterly contested game in the tenth inning, 7-6.

Charleston scored the winning run in the eighth only to have the umpire call the man out with the catcher not even getting the ball until the man was across the plate. A wild pitch after a single and two stolen bases accounted for the winning run in the tenth.

Charleston opened the scoring with a run in the second, Hearnies singling to right, stealing second and scoring on Myers' double to center. Union City came back to tie the count in the last half of the second on a single, a fielder's choice, a walk and a single. In the third frame, Cloys, Union City second baseman, doubled to right, took third on a passed ball and scored on a wild pitch. The Cardinals knotted the score in the fourth, Miller walking and scoring on Morrow's double to right. Union City forged ahead in the sixth, a walk, a safe bunt, a ground out and fly out, and three straight singles forcing four runs across the platter. In the eighth, Myers started the fireworks with a single across third base.

Cokenour singled off of the third baseman's glove. May loaded the bases when the Union City second sacker muffed his fly ball back of second. Mast singled to center scoring Myers. Ault fouled out, but Munger doubled to left, driving in Cokenour and May. Miller singled to right, scoring Mast and Munger was called out after he had crossed the plate. Miller died, stealing second to end the rally. In the tenth, New Daniels, the pitcher for Union City, singled to right, Cloys running for him, stole second and third and scored when May uncorked a wild pitch to the stands.

Munger, Myers with a double and single and Miller and Hearnies with two singles led the hitting for Charleston. Cloys of Union City, led their hitting with a double and single. Latimer and Houser with two singles were also leaders.

Joe Munger, Charleston center fielder, robbed a Union City man of an extra base hit in the eighth, running into left center to take the ball on the dead run and whipping it to Miller to complete a double play.

Charleston plays Osceola, Ark., here Sunday.

The bachelor comforts himself with the thought that disappointment in love has one consolation—it may have saved him a greater pain during the past year. But just "No one ever would have crossed the ocean if he could have gotten off the ship in the storm"—Charles F. Kettering.

We are informed that the farmers of the U. S. A. are refinancing. We are going to consult a good disappointment in marriage.

There have been cults of mountain worship in China for centuries. The pilgrim clubs connected with the mountains being of two kinds, "Traveling" and "Stationary", the former sending out representative delegates to a peak at stated intervals, the latter, also called the "Squatting and Fattening Society", for instead of making the actual pilgrimage, limit their activities to the worship of a paper mountain at home, with convivial accompaniments on a liberal scale.

Put Your Liver To Work—Make This Test

You can't feel well and strong unless your liver furnishes your stomach and bowels plenty of fresh bile every day. Without bile food doesn't digest properly—it just ferments and decays—constipation, gas, sour stomach, headaches and nervousness follow.

Don't be misled. Calomel, salts, oils, mineral waters, laxative pills, etc., have no effect whatever on the liver. There are only two generally

recognized substances which actually cause a sluggish liver to increase its production of bile. Sargol Soft Mass Pills contain both of them. Unless you have tried Sargol Soft Mass Pills you can have no idea of their effect—you feel stronger, healthier, happier—life and color return to faded eyes and cheeks—appetite and digestion improve rapidly. State to Protect Big Spring

A retaining wall is to be built soon in Big Spring State Park in Carter County, which will protect Big Spring from threatened destruction. A 400-foot dam will change the flow of Current River away from Big Spring. Emergency conservation men located in Deer Run State Park will be used on the project which will be used for sale and liberation. Mr. Breisch informs this department that he has greatly restricted the production of pheasants this year. The quail and pheasant hatcheries were made by artificial means. During the three years that the game farm has been in operation, Mr. Breisch states, he has spent approximately \$18,000. The Game and Fish Department has been one of his best customers.

Four Thousand Quail Ready

E. E. Breisch of Windsor, owner of a game farm located in the Southwest section of Pettis County on State Highway No. 2, reports that he will soon have over four thousand young quail ready for sale and liberation. Mr. Breisch informs this department that he has greatly restricted the production of pheasants this year. The quail and pheasant hatcheries were made by artificial means. During the three years that the game farm has been in operation, Mr. Breisch states, he has spent approximately \$18,000. The Game and Fish Department has been one of his best customers.

50,000 Trout at Montauk

Some fifty thousand three and five-inch Trout Fingerlings have been transferred from the State hatcheries at Bennett Spring State Park and Sequito to the spring in Montauk State Park, located in Dent County, southwest of Salem. The baby trout will be used to stock Current River and other cold water streams in South Missouri. Bernard J. Scheve, game warden for District No. 22, a resident of Gasconade County, reports several arrests in one day of persons fishing without licenses and catching channel cat out of season. Warden Scheve also recently assisted in the arrest of a bandit who robbed a rural mail carrier near Union.

Manley G. McKinley of Unionville, District No. 3 warden, is making a systematic investigation of reports of fish and game law violations. Warden McKinley says he has received reports of farmer having had stock killed or injured by hunters who carelessly fired into livestock.

Law Fixes Length of Game Fish. The only game and fish law to survive the last legislature and receive the approval of Governor Park was the provision on bill which new length limits on game fish. It will become a law July 24. The limits in the new law are: Bass 8 inches; Crappie, 6 inches; Channel Cat, 12 inches; Rock Bass or Goggle-eye, 5 inches; Drum, 9 inches; Trout, 8 inches; Jack Salmon, 12 inches. Measurements will be from the end of the nose to the tip of the tail. Violations of the law are made a misdemeanor. A part of the fisherman's kit in the future should include a twelve-inch gauge.

Moving down stream of sand and gravel bars has furnished bathers in the vicinity of Hollister and Rockaway Beach, on Lake Taneycomo, with ideal beaches. Fishing has been greatly benefited too, according to news reports reaching the Game and Fish Department, eliminating mud with layers of sand and gravel favorable to propagation of game fish. The capture of an alligator gar is reported near Risco, in New Madrid County, where Little River has overflowed its banks and covered a field. The monster fish is said to weigh 176 pounds, measuring seven and one-half feet in length. A high powered rifle was used to kill the long water animal. The fish has been mounted and will be sent to the Chicago Fair.

For the past several years it has been the custom of this department to issue a Weekly Report on Fishing Conditions thru out the State. This service has proven to be of much benefit to those who plan fishing trips. The first report of the season was issued last week.

Harry C. Shutte of Kansas City, a field man for the American Game

Association, last week caught an 18-inch 4-pound small mouth bass on the Niangua River, below Bennett Spring State Park, while on a float trip.

The recent catch of a 103-pound yellow catfish on Grand River, in Cass County is reported. The head alone weighed 14 3-4 pounds. This is the largest fish ever to be caught in Cass County, according to J. W. Sexton of Harrisonville.

The first deer to be seen in Pulaski County in forty years was viewed recently by J. R. Jackson near Big Piney. The deer, a full grown doe, was viewed by Jackson while plowing corn.

Lee Chiles, keeper of Meramec State Park, 4 miles east of Sullivan in Frank County, reports that over eighteen hundred people visited the park last Sunday. Mrs. J. P. Biggs, keeper of the historical Arrow Rock Tavern, east of Marshall, on Highway 41 also reports an increased number of visitors during the past week. Parkkeeper Frank Brockway, says the swimming pool and picnic grounds are quite popular during the heated weather. Other State parkkeepers report increased attendance.

The National Forest Reserve Association, a "land use project", was formed last week at a meeting of five counties held at Celestia, in Washington County. Good of Salem was selected chairman of the association and R. E. Thielecke of Cuba, secretary. Counties included in the 125,000-acre forest tract are Crawford, Dent, Iron, Reynolds and Washington. The establishment of a federal forest reserve in this area will create a splendid game refuge forest reserve joining Indian Trail State Park in Dent County.

IS COTTON HAND THE ONLY 'FORGOTTEN MAN'?

RALPH MILLET in Memphis Press-Scimitar I never thought I would live to see the day when the government would lend a farmer money to plant a cotton crop in the spring and then pay him to plow it up in mid-summer.

I never thought I would see a Santa Claus when the thermometer is flirting with 100 in the shade. But these are war times with a lot of things in reverse.

We are fighting depression, unemployment and surplus crops.

I guess it is just as sensible to pay the farmer to plow up part of his crop to make the balance bring more as it is to wad a thousand dollars' worth into a gun and try to kill a few human beings. Perhaps it is just as sensible as it is to blow up a building with dynamite to halt the progress of a fire that threatens to spread over an entire city.

The worst feature I see about the cotton plan is that it will give the cotton pickers less cotton to pick this fall, the gins and compresses fewer bales to handle.

But one can't work out any plan that hasn't some drawbacks.

Of course, the theory is that the plan will make cotton go to 12 cents or more and that everybody will benefit from the resulting prosperity.

But my guess is that it will help the farmer more than it will the cotton hand—the landlord more than it will the tenant farmer. The cotton hand not only will get less work but the better times will cause the price of what he buys at the commissary to go sky high.

I have't persued one of the contracts the government is going to make with the farmer, but I'll bet a cookie that there is no clause in it providing for higher wages or shorter hours for the cotton picker.

He probably is the forgotten man—forgotten even by the President. During the World War the government had a representative on each draft board to see that justice was done to the government and individual.

If a decision didn't look right to him, he could appeal it, and often did.

I think the lowly cotton picker and tenant farmer ought to have a special representative on every committee to see that he gets justice both as to wages and in the settlement he makes with the landlord.

If precautions are not taken, we are going to see human nature work overtime this summer and fall.

But as a whole, the goose at Washington, if you want to call the scheme a goose, is about to lay a golden egg for the South. If the plan goes through—and it will—millions of dollars in cold, hard cash is going to be dumped in here right in the middle of the summer when we have had no money coming in.

What a break for the Chicago World's Fair!

What a break for the automobile people and the gas station! "But what about next season—won't every backyard be planted in cotton for the government to buy?" folks asked me.

Of course, next year—and the year after—will have their problems; but that is next year.

What we want is Santa Claus this year.

And, by gum, he's coming—right in mid-summer—and he's going to take us all to the World's Fair, and the guy who blows his nose on a cotton handkerchief is going to pay the bill.

Can you beat it?

Of course, you can't beat a golden egg.

PERTINENT PARAGRAPHS FROM THE PARIS APPEAL

The New Deal should include a new deal for grafters. Any official who robs the Government while it is trying to save millions from starvation should be declared guilty of treason and shot at sunrise.

Reports from Detroit are to the effect that the Ford Motor Company's surplus is only \$580,440, 602.54. Even at that, Uncle Henry and Edsel may be able to worry along. A surplus like that would look like all the money in the world to our Uncle Sam.

Will Rogers says he will never

believe any of these international marriages are inspired by love until one of those European noblemen marries an American girl who has no money. But Will is wrong. Love always figures in such matches—the love of the heiress for a title and the love of the count or prince or duke for her millions.

We sometimes think too much blame for miscarriages of justice is placed on lawyers and judges and too little on juries which render the verdicts. Seven juries out of every ten are the wrong sort. This is because an intelligent man who may have heard of the case is always waived aside in favor of an ignorant man who has not. The

more ignorant the juror the easier it is to play on his prejudices and passions, thus influencing him into decisions that are not based on facts that were developed. The cause of justice would be promoted by trials before judges or by prescribing more reasonable qualifications for places in the jury box.

Our Research Department is ready to report on the awful expense to which teachers are put in attending college or university during the summer term. Out of 973 cases that were investigated our specialists, headed by Dr. Bildad Botts, found that exacting boards had required 76 to either get more credits or lose their jobs. The other

897 teachers had enrolled for further instruction because they were of the opinion that just anything beat staying at home. Of this 897, sixty-seven per cent had boy friends in towns where they were attracted by the nice surroundings their landladies maintained. Three per cent were attracted by an earnest desire to come nearer earning their salaries. Ninety-nine per cent of the teachers were girls in their teen age, ninety-five per cent of whom expected to quit teaching just as soon as they could get something else to do. The conclusion reached by Dr. Bildad Botts and his efficient corps of experts was that

too much sympathy is wasted on those who attend summer school, the idea being that most of them would need more sympathy if they had to stay at home.

A high-toned lady in a big car yesterday stopped at the store to ask the way to Tickville. Ellick Helwanger said she had with her some sort of a black, squeaky insect which she called "Fia". Ellick has asked the Wild Onion School Teacher to look it up in his bug book.—Commercial Appeal.

FUTURE GROWTH OF SIKESTON DEPENDS UPON THE COOPERATION OF ITS OWN CITIZENS

Prosperity, so far as Siketon is concerned, will begin to show its head above the depression level when merchants, lawyers, doctors and citizens generally begin patronizing local enterprises and industries.

By local enterprises and industries, we mean those which are established here, the ones that pay taxes, wages, etc.

A great deal of money that is being earned in Siketon is finding its way into trade channels that end in other cities.

Siketon is located in one of the richest agricultural sections of the country. Siketon has always maintained her leadership among the cities of this part of the nation as one of the most progressive cities through her years of civic and commercial activities. Ever, prospective purchaser of merchandise or professional services, is actually in need of merchandise or services. Three years of depression talk has reduced prices to the minimum. It is a matter of restoring confidence and realizing that Siketon is the logical trading center within a radius of fifty miles.

COST OF TRADING AWAY FROM HOME

But, first we must be sold on Siketon. Sell the "buy it in Siketon" spirit to yourself and family, as well as to your neighbors. Suppose that the needed article does cost a few pennies more—consider your cost of transportation of going to and returning from the other trading centers, including your other miscellaneous expenses.

On the general average every commodity is as reasonably priced here in Siketon as in any other trading centers. The selection is surely as large, and by trading at home, your local merchants are encouraged to add to their stocks.

RETURN PROSPERITY QUICKLY

If every citizen of Siketon and its environs would purchase all of his or her necessities in this community, prosperity would return very quickly indeed, therefore, it is incumbent upon every citizen to do his or her part—and, "buy at home" BEGINNING TODAY.

DEBUNKING THE BUNK

There is a vast amount of unadulterated "bunk" being thrown around the current discussion of "balanced budgets".

There never can be a justification of waste in the operation of any business, whether it be any department of the government or privately owned. We cannot make a case for useless construction, just to create employment.

But there is one argument to be used in behalf of balancing our budgets at all costs that will bear discussion.

It is said on all sides that we must balance our budget in order to preserve our credit as a nation. We must submit that the one thing that will surely fortify our credit in this nation of American business, is the revival of popular purchasing power.

If this is true—and we are sure that it is—then every proposal for tightening up on the purse strings, should be considered in terms of what it will do to help or hamper this purchasing power at a time when business suffers a serious retardation, for the reason that private spending is at low ebb.

WHAT YOU SHOULD DO

Do your part as a booster for more business, more prosperity and good times by buying now, when your dollar is worth possibly 80% more than it has been in the last ten years.

It has been proven possible to experience an economy hysteria as well as an extravagant one. In other words, it behooves us to be careful lest we lose our heads and launch out false and futile economies that will actually cancel the heroic efforts of the business, professional and civic minded men and women who are putting forth every effort to stimulate economic enterprise and hasten the return of better times, and those whom you find listed with this editorial are spending much time and money to bring business conditions back to normalcy. BUY TODAY—DRIVE DEPRESSION AWAY.

Personal And Local Items From Morley

(By Mrs. C. A. Stallings)

Mr. and Mrs. Shirley Irvin of St. Louis came down Saturday night for a holiday visit with Mrs. Wm. Irvin and other relatives.

Mrs. Sterling Marshall of Marshall, Mo., and Mrs. M. D. Mayfield of Leachville, Ark., arrived Sunday to be at the bedside of their brother, Dr. C. D. Harris.

Mr. and Mrs. J. E. Smith returned Tuesday, after a few days' trip to the Ozarks, including Bagnell Dam, Springfield and Big Spring.

Mrs. Hugh Johnson of Bell City was a Morley visitor, Sunday.

Mrs. Ray Miller and son of Jackson spent Monday with the former's sister, Mrs. R. H. Leslie and took back her daughter, Miss Dorothy, who spent a few days here.

Orman Dean Clayton left Wednesday for St. Louis to resume his work after a few days' visit with his parents, Mr. and Mrs. W. P. Clayton.

Misses Mary Ellen and Frances Perdue came down Tuesday to spend a week visiting among relatives.

Joe Leslie returned Wednesday from a few days' visit with Loren Tomlinson, Jr., at Farnfield.

Mr. and Mrs. Harris Foster and children, Mr. and Mrs. Harold Perdue, Mr. and Mrs. Arthur Darter, J. R. Lee, Jr., and Miss Mary Alma Harris returned to their homes Monday, after a few days at Eleven Point.

J. P. Howle of Charleston came up Wednesday for a brief visit with relatives.

The home-coming and barbecue here Tuesday was a success, both socially and financially. A good crowd, excellent eats and pleasant weather all served to assist.

U. A. Emerson is much improved after a two weeks' illness.

Fish frequent the surface of the Green bean much less than might be supposed. Most fish live about the coast and near the bottom.

In April, 1834, a group of political refugees from several countries in Europe met in Switzerland and formed an international revolutionary society to be known as Young Europe, each country represented having its own branch.

How One Woman Lost 20 Lbs. of Fat

Lost Her Prominent Hips—Double Chin—Sluggishness

Gained a Shapely Figure

If you are fat how would you like to lose it and at the same time gain in physical charm and acquire a clean, clear skin and eyes that sparkle with buoyant health.

Why not do what thousands of women have done to get rid of pounds of unwanted fat? Take one half teaspoon of Kruschen Salts in a glass of hot water every morning before breakfast and keep it up for 30 days. You can help the action of Kruschen by cutting down on pastry and fatty meats and going light on potatoes, butter and cream. Then weigh yourself and see how many pounds you have lost.

Kruschen Salts are a blend of 6 salts most helpful to body health. Best of all, a bottle of Kruschen Salts that will last you for 4 weeks costs but a trifle. Ask any druggist for a bottle and start to lose fat today. It's the safe way to reduce but be sure you get Kruschen—your health comes first.

These Menus Make Picnicking Easy

By JOSEPHINE GIBSON
Director, Heinz Food Institute

OCCASIONAL picnics are so much work that women often dread them. It is when we are in constant readiness for them that picnics become the easiest way, and one of the most enjoyable methods, of serving meals. Picnic preparedness means having a basket or hamper prepared with such picnicking necessities as one or more thermos bottles, salt and pepper shakers, a supply of paper tablecloths, plates, napkins, inexpensive or old cups, tablespoons, teaspoons. After each picnic, dishes and thermos are washed and replaced in the hamper with a fresh supply of paper plates and all is in readiness for the next picnic. With such provisions, a picnic may be decided upon at the last minute. Foods ready-to-serve are gathered together. Here are several menus that require little preparation beyond assembling and placing in the picnic basket.

- | | |
|---|--------------------------------|
| Assorted Cold Meats | Picnic Eggs* |
| Buttered Rolls | Prepared Mustard |
| | Genuine Dill Pickles |
| | Tomatoes and Lettuce |
| | Assorted Fresh Fruits or Melon |
| | Packaged Cakes |
| Cream of Pea Soup (in thermos) | Saltines |
| Picnic Potato Salad* | Small Whole Tomatoes |
| | Spanish Queen Olives |
| Buttered Rolls | Pure Apple Butter |
| | Individual Cherry Pies |
| | Coffee (in thermos) |
| Cold Baked Ham | Oven Baked Beans (in thermos) |
| Preserved Sweet Gherkins | Small Whole Tomatoes |
| | Buttered Whole Wheat Rolls |
| Prepared Mustard | Chili Sauce |
| Chocolate Loaf Cake (or packaged cakes) | Coffee (in thermos) |

(* Indicates recipes given below.)

Picnic Eggs—Cool 4 hard cooked eggs, shell and cut in half lengthwise. Mash yolks, and add 3 tablespoons Sandwich Spread, and salt and pepper to taste. Refill egg whites with this mixture, place two halves together and wrap in waxed paper.

Picnic Potato Salad—Dice 5 medium size cold cooked potatoes, 1 tomato, and 1 large cucumber, add finely chopped onion, 1 teaspoonful salt, 3 frankfurters which have been cooked in boiling water, cooled, peeled and sliced, and ¼ cup Sweet Dill Pickle, chopped. Moisten the salad using Mayonnaise Salad Dressing to which has been added 1 teaspoon Prepared Mustard.

One hundred years ago, the passenger traffic between Spain's two large cities, Madrid and Cadiz, was efficiently "racketed". One line of stagecoach insured its travelers against bandits, at, of course, triple the usual charge, the efficient bandit gang of the district protecting its own line against other bandits as well as joining to despoil all competitive business.

Before printing, there were writing schools everywhere in Europe, where the monks wrote out copies of the Bible by hand. There is record of 200 volumes thus turned out by 50 writers in two years' time.

The sad news reached us Tuesday of the death of August Wallhausen, father of Art L. Wallhausen, of The Standard force, which occurred in a hospital at Kansas City, where he was recently operated on for gall bladder trouble. No particulars except the funeral was held Thursday. Mr. Wallhausen was 77 years of age and leaves a wife and five boys to mourn his loss. To them, friends of Art in Sikeston and Southeast Missouri, extends sincerest sympathy.

Wonder what is causing the price of grain and the necessities of life to jump up when we are led to believe a great surplus exists in this, and other lands, unless it be stock gamblers. We wonder again if wages of the underpaid laborer has been increased in proportion to the increase of flour. Just a lot of hooey somewhere.

About fifty members of the American Legion, their wives and children, the Auxiliary and their husbands, spent the Fourth on Castor River, half a mile above the bridge. It was a most enjoyable day and the little folks and the bathers had a grand time.

It looks as though Uncle Sam is having a hard time to convince the other eleven jurors that they are wrong in their conferences at London. And Uncle Sam may be wrong at that. If the foreigners do not out-smart our representatives it will be unusual. And we don't know what we can do about it, either.

Two electric clocks at the editor's home stopped at 7:50, morning or evening, we don't know which, as no one was at home. Do not know whether it was caused by an "out", an earthquake or fire cracker.

We have been giving a great deal of thought of late to a patent that would be a great help to the ladies and save the men from nervous spells caused from fear that something might happen. It is a strap holder that would keep the dainty ribbons and tapes from slipping down over the shoulders. Most all of you have seen a woman dive into the loose neck or shoulder section of her dress hunting for the pieces that hold up some section of her few undies. This is what embarrasses we men. We can't lend assistance and are afraid something will fall off.

Some women are mighty curious about certain things. While on the Fourth of July trip on Castor River, the editor caught his foot on a wire that threw him so hard that six inches of bark was skinned off his shins. Just because we were looking at a woman's naked back and not where we were going, little sympathy was extended by the Missus. A horse doctor gave first aid.

In a "beauty bark" contest in Hollywood, Judith Allen had the most perfect back. No front views were shown in the papers.

Soiled doves may expect to have nests disturbed once in a while, but when it comes to married men threatening to shoot some of the doves and causes them to fly to respectable homes for protection, then it gets to be a serious matter. This happened recently when a married man flourished a pistol and made threats. We are not attempting to regulate the morals of anyone, but just giving a tip that may prevent a killing.

Somebody has kindly sent the editor an announcement of a new Goss Combination press and wrote across the top to buy two, one for the sheriff. The sheriff is likely to get more printing presses now than he can use unless collections get better.

We are happy to state that no serious accidents of any sort happened in the Sikeston vicinity July 4 that we have heard of.

A POEM

Without a Persian golden Krans
Fair Nippon's yellow yen
Gold francs from Belgium or France
Great Brittain sovereign.
Pesetas from fair, sunny Spain
Or Austria's golden Kronas
And in this grand old U. S. A.
With all its millions regal.
Just for my own might I display
A great round golden eagle.
But
Riches are there oft' discerned
In babies golden hair.
The sapphire blue eyes diamond-
ed
Sometimes when tears are there.
In pearls teeth and matchless smile.
In these are riches all the while.
And never might there prove
more bliss
Than any darlings precious kiss.
For worlds of gold nor pain nor strife
Might we exchange that precious life.
Much gold might lay in mould and rust
Nor meet an infant's open trust.
So if there is one such in store
You're steeped in riches, gold galore.

SIKESTON, SCOTT COUNTY, MISSOURI FRIDAY MORNING, JULY 7, 1933

NUMBER 80

DR. C. D. HARRIS OF MORLEY DIES SUDDENLY TUES.

Morley, July 5.—Dr. Clarence D. Harris was born at Morley, January 6, 1875 and died July 4, 1933, age 58 years, 5 months and 28 days. He was the second son of Mr. and Mrs. Van Harris, who were in the general merchandise business here for many years. Dr. Harris was converted while in his teens and joined the Baptist church later, becoming a Deacon, an office he held until his death.

He was married March 1, 1896 to Miss Mary Howle and to the union five children were born: Dr. Harold Harris of Troy, Mo., Mrs. Ruth Finney of Morley, Jim Van Harris of Troy, Mrs. Mamie Kilmer of Dexter and C. D. Harris, Jr., of Morley. Three sisters also survive: Mrs. Sterling Marshall of Marshall, Mo., Mrs. Lee Wellman of Cape Girardeau and Mrs. M. D. Mayfield of Leachville, Ark., and seven grandchildren.

Dr. Harris owned the Morley Drug Store, an interest in the Emerson-Smith Gin Co., and some land. He has been a member of the Masonic Lodge and was a leader in his town and community, a man who will be sadly missed by his neighbors and friends.

The funeral was held at the Baptist church Thursday, June 6, with the pastor, Rev. J. W. Jeffries, in charge. Burial in Morley cemetery.

OLD KROGER STORE HAS NEW CLERK

Jimmie Connis, known to many Sikeston patrons as a clerk at the Russell Walker Kroger Store, has recently been transferred to Doniphan, and Robert Stovall, former Doniphan clerk, has been sent to this place.

REGULAR MEETING OF CITY COUNCIL

Monday evening was the regular meeting of the City Council. Regular routine business was transacted, report of committees, bills presented and allowed. No excitement of any sort and Council adjourned.

POLICE COURT

Ronel Huey was picked up by Deputy Sheriff Shufft for violating his parole and is held in jail. He was charged originally with theft.

Madison Riddle, white, Lee Williams and Gerard Hunt, colored, are in jail charged with possession of liquor. A hearing before Judge Myers will be given Friday.

The raw citizen soldiery of Canada played a decisive part against the professional armies of Central Europe in several battles of the World War.

FIRE LOSS PER CAPITA LAST YEAR PLACED AT \$3.26

During 1932, the national fire loss amounted to about \$406,885,000. This was a decrease of approximately \$45,000,000 as compared with the previous year. However, as a committee of the National Board of Fire Underwriters recently pointed out, viewed in terms of actual value, based on the commodity price index losses in reality increased by almost \$5,000,000. In other words the decrease in fire loss was less than the drop in value of the property destroyed.

Fire remains one of our most pressing problems. In 1932 the destruction amounted to \$3.26 per capita, and in some cities it reached a figure of more than \$14 for each resident. It is an intolerable drain on national resources; at this time, especially, it is a barrier in the path of recovery.

As a matter of fact, the \$400,000,000 direct loss is the least of it. The indirect loss is several times as great. Every time a place of business burns, men and women are thrown out of work. Their purchasing power drops. The whole community feels it. Taxes which would normally be paid, are lost. There are cases on record where progress in whole towns has come to an end because of a single fire.

The National Board estimates that 2 per cent of fire loss is preventable. Some authorities place the preventable loss as high as 80 per cent. It should be the objective of every citizen to make his property—whether it is a great factory or a 2-room bungalow—as safe from fire as is scientifically possible.

Local Juniors Defeated Sunday By Oran Nine

The Sikeston Juniors suffered a 8 to 6 defeat at the hands of the Oran nine on the local diamond Sunday afternoon in an unusually slow game. The first part of the game was exceedingly slow, with numerous errors on the parts of both teams, but during the last half the players had become "warmed up" and the scoring began.

The Oran team, however, succeeded in sending more men to the home plate defeating the local nine by two points. This was the first defeat suffered by the Sikeston boys, who thus far had won two games in the Scott County baseball league.

Nine Arrested For Improper Auto Licenses

Monday and Tuesday were busy days for Highway Troopers Dace and Tandy, who arrested nine persons operating automobiles with improved licenses. In each case the law violator was charged a five dollar fine and cost, the total cost amounting to \$13.60. Those who were arrested were:

Clara Fry, Caruthersville, using license issued for a T Model Ford costing \$10.50, on a Chevrolet car which requires a \$16.50 license.

Joe Copeland, Steele, using Arkansas license.

Lam Lane, New Madrid, no license.

J. H. Cecil, Steele, using borrowed license.

C. Wilson, Kennett, borrowed license.

C. Bakke, Kennett, borrowed license.

C. Wilburn, Kennett, borrowed license.

K. Mullen, Kennett, license not transferred.

Wilbur Gullett, Parma, borrowed license.

"Tin Woodsman"

NICK CHOPPER, the "Tin Woodsman," well known to readers of the famous Oz books, is greeting thousands of little visitors to Enchanted Island, the children's paradise at a Century of Progress. No longer is Nick bothered by rusting joints, for, like the other figures on the island, the "Tin Woodsman" is made of pressed wood. Behind him in the picture is the "Scarecrow."

IN MEMORIAM

In loving memory of our dear friend, Bertie Freeland Newton, who departed this life one year ago July 4, 1932.

Peaceful be thy silent slumber
Thou no more wilt join our number
Thou no more our sorrow know.
Yet again we hope to meet thee
When the day of life is fled
And in heaven with joy to greet thee

Where no farewell tears are shed.
Missed by a friend,

Grabs Wheel of Car—Woman Dies in Wreck

Fredericktown, July 6.—On her way to Ironton with friends to attend a Baptist service and reunion Tuesday, Mrs. Stella Van Nees of Frankfort, Mo., was fatally injured when the automobile in which they were riding went off Highway 61, a half mile north of Mine La Motte.

Three others riding in the car said when the machine swerved on the highway Mrs. Van Nees grabbed the steering wheel, and in the confusion the car went off the road. L. A. Litter of Center was driving. He and Mrs. Litter were painfully cut and bruised, but Mrs. D. C. Miller, also in the machine, escaped almost unhurt.

The accident happened at 9:15 a. m., and Mrs. Van Nees died 45 minutes later, of a broken neck, at the office of the Madison County coroner, Dr. W. Harry Barron in Fredericktown. The body was taken Tuesday night to Frankfort and burial will be there.

EMERGENCY HOSPITAL

Mrs. W. A. Hennecke of Matthews who has been a patient in the hospital for the past few weeks following a major operation, is recuperating nicely.

Henry LaMastur of New Madrid, who has been receiving treatment for a broken leg for the past several days, is reported as getting along nicely.

Mary Elizabeth Quettermore of Bertrand an appendicitis patient, was released, Wednesday.

Mrs. Bill Pratt entered the hospital Sunday for treatment. Her condition is satisfactory.

Mrs. Harry Hambrick, who Monday morning underwent a major operation, is doing nicely.

The condition of Marvin Hense, operated on last Wednesday night for appendicitis, is satisfactory.

CHARLESTON LOSES TO MOUNDS, ILL., 10-0

Charleston, July 4.—The Charleston Cardinals lost a poorly played game this afternoon to the visiting Roxy's of Mounds, Ill., by a score of 10-0. This was Charleston's first shutout of the season, and made their record stand at 8 victories and 3 defeats. The Cardinals won over the Roxy's last week, 7-6 in ten innings. Ault, pitching for Charleston for eight innings, allowed 10 hits and the visitors were aided by 6 Charleston errors. Kennedy allowed the Charleston team but 6 hits and was in danger of being scored upon but pitched a runner on third and second, but forced one batter to ground out and the other to fly out. Kennedy struck out 7. Turner, Mounds catcher, threw out 4 men stealing second. Garrett, Mounds second sacker, did something unusual today, taking 10 putouts and handling 5 assists at the midway.

Titus, Mounds left fielder, doubled twice and singled once for the hitting honors. Skiles, Mounds first sacker, doubled and singled and Hudson, Charleston left gardener, singled twice for second honors.

Mounds scored twice in the second on frame on a batter hit by a pitched ball, a double and a single. In the sixth, the Roxy's added 5 more on 4 hits, one a double, and three Charleston errors. The last three were added in the eighth, a single, double and two errors doing the dirty work.

Charleston will play West Frankfort, Ill., next Sunday, July 9.

There was a wise and noble Cock who crowed each morn at four o'clock.

And advertised to all around
Exactly where he could be found.
Now every biddy in that flock
Would steal away and meet that Cock.

The other roosters sure got sore,
But he only advertised the more,
And all the hens with any vim
Were trying to make a date with him.

So here's a tip if you are wise—
Things come to those who ADVERTISE.

It is said that members of the Senate consumed 5000 aspirin tablets at the expense of the taxpayers during the past year. But just think how many aspirin tablets the taxpayers had to consume because of the Senate.

LIONS CONSIDER PLAN FOR MORE CHARITY WORK

The regular mid-week luncheon of the Sikeston Lions Club was held at the Marshall Hotel Wednesday, and several important matters discussed. Plans for the State and International Convention to be held at St. Louis next week are almost completed and much enthusiasm has been aroused over the coming event. The Sikeston Club will be represented by its selected delegates and the Lions Chorus of beautiful girls, which gives its prelude at the Malone Theatre this (Thursday) evening. Numerous foreign countries will be represented at this convention, and Missouri feels fortunate that she has been chosen for the meeting place of this important affair. Those attending the meeting will find it educational as well as immensely entertaining.

The local Club is considering sponsoring the gathering up of cans and jars for the use of the Relief Committee in canning foods of various kinds for use of the poor this winter. The County Court is buying a "cammer" and the County Committee will meet with the Club at their next meeting to discuss plans for this activity.

Much good work has already been done by the new officers and committees and everyone is predicting a good year ahead, for the Lions Club.

80 PER CENT OF COTTON QUOTA SIGNED UP

A telephone message from R. L. Furry, County Farm Adviser, says at a meeting held at the Court House in Benton, Wednesday evening, it was found 80 per cent of the cotton acreage to be plowed up in Scott County had been signed.

The Committees in charge had run out of blanks, but expecting a new supply in every mail.

It is not advisable to destroy any of the growing cotton until it is certain the required acreage is signed up.

It is reported that one or two farmers who have signed the offer to enter into a cotton reduction contract with the Secretary of Agriculture have already plowed up the cotton covered by the offer, and that others are contemplating no further cultivation of the cotton offered.

The extension office wants to issue this definite fact and warning: This cotton is not sold to the Secretary of Agriculture that your offer has been accepted. Notice of such acceptance are not likely to be received before July 8 or 10 and maybe considerably later. We strongly recommend that farmers offering cotton under these contracts continue to cultivate their cotton just the same as if the offer had not been made, in order that the crop will not be reduced by lack of cultivation if the offer is not accepted.

Where the cotton grower intends to plant corn, if the cotton offer is accepted, he could after working out his cotton, the latter part of this week plant corn in the middle. By so doing, if the cotton is accepted, his corn would be started a week earlier, and if the cotton is not accepted the farmer is out only the labor and seed.

CHARLESTON LOSES to Union City

Charleston, July 3.—The Charleston Cardinals journeyed to Union City, Tenn., yesterday and lost a bitterly contested game in the tenth inning, 7-6.

Charleston scored the winning run in the eighth, only to have the umpire call the man out with the catcher not even getting the ball until the man was across the plate. A wild pitch after a single and two stolen bases accounted for the winning run in the tenth.

Charleston opened the scoring with a run in the second, Hearnies singling to right, stealing second and scoring on Myers' double to center. Union City came back to tie the count in the last half of the second on a single, a fielder's choice, a walk and a single. In the third, the frame, Cloys, Union City second baseman, doubled to right, took third on a passed ball and scored on a wild pitch. The Cardinals knotted the score in the fourth, Miller walking and scoring on Morrow's double to right. Union City forged ahead in the sixth, a walk, a safe bunt, a ground out and fly out, and three straight singles forcing four runs across the platter. In the eighth, Myers started the fireworks with a single across third base.

Cokenour singled off of the third baseman's glove. May loaded the bases when the Union City second sacker muffed his fly ball back of second. Mast singled to center scoring Myers. Ault fouled out, but Munger doubled to left, driving in Cokenour and May. Miller singled to right, scoring Mast and Munger was called out after he had crossed the plate. Miller died, stealing second to end the rally. In the tenth, Newt Daniels, the pitcher for Union City, singled to right, Cloys running for him, stole second and third and scored when May uncorked a wild pitch to the stands.

Munger, Myers with a double and single and Miller and Hearnies with two singles led the hitting for Charleston. Cloys of Union City, led their hitting with a double and single. Latimer and Houser with two singles were also leaders.

Joe Munger, Charleston center fielder, robbed a Union City man of an extra base hit in the eighth, running into left center to take the ball on the dead run and whipping it to Miller to complete a double play.

Charleston plays Osceola, Ark., here Sunday.

GOLF

THE OVERLAP GRIP

H. L. Oatman

The hands play a very important part in the golf swing. Every movement that the arms and wrists make are transmitted thru the hands; therefore the hands must be in the correct position.

The position of the hands must be natural. Let your arms hang limply at your side and you will find that your hands hang inward. Move your left arm to the front of you and try gripping the club from the forefinger to the palm of your hand, with your hand in the same position it was at your side. Then move your right arm the same as you did your left, and grip the club in the fingers, with the little finger of left hand, overlapping the forefinger of the right. You will find that gripping the club with the fingers of the right hand, leaves a "pocket" into which you insert your left thumb. With your hands in this position, you will be able to move your wrists and arms without any tension of the muscles.

Over 95% of the best golfers in the world use this grip and it is really the only orthodox grip.

NEW BALL PLAYER SIGNS WITH CHSTON

Charleston, July 1.—The Charleston Cardinals infield will be strengthened as Bert Steely, formerly of Brinkley, Ark., has moved to Charleston and will play with the locals. He has been playing with the Brinkley team that has won 6 out of their 8 games this season and was the leading hitter of the nine, batting .82 for the eight games.

One of the big features of his hitting was his extra base blows, getting only three singles out of his hits. His hits include one home run, the rest being doubles and triples.

SIKESTON LADIES IN CAR WRECK

While returning from Walnut Ridge, Ark., Tuesday afternoon, where they had been to visit the Kiersky family, Mrs. John Albritton and Miss Mildred Arbaugh were injured in a car wreck near Cardwell, in Dunklin County.

It seems there is a 9-foot concrete slab and a 9-foot gravel road along this section of the highway and Mrs. Albritton honked her horn for a car just in front of her to pull out so she could pass. They did, but coming from the other direction was another car and neither had time to avoid a head-on collision.

Mrs. Albritton was cut about the upper and lower arm by glass from the windshield, while Miss Arbaugh suffered only from minor bruises and shock. A physician from Cardwell gave first aid and the ladies were sent to their homes in Sikeston.

The Jack Matthews wrecker was sent after the car which was considerably damaged.

McDonald-Shirk Wedding June 25 In Oklahoma

According to the Holdenville, Oklahoma Daily, Miss Lora E. McDonald and Dr. B. B. Shirk, both of Holdenville, were united in marriage, Sunday evening, June 25, at the home of Mr. J. B. Campbell, of 408 North Bullitt street. Rev. J. E. Kirk, rector of the Episcopal church and pronounced them man and wife.

Mrs. Shirk is a registered nurse and member of National League of Nursing Education. Six months preceding the death of Mrs. J. B. Campbell, she attended Mrs. Campbell, as nurse and companion. Mrs. Campbell had planned to have this marriage take place at her home, and had expected to be present. When she learned that this was not to be, she requested that the marriage take place at her home, after her death.

Only a few of the intimate friends of the bride and groom witnessed the ceremony. Mrs. Ocie Heady was matron of honor, and J. B. Campbell attended the groom. The wedding march was played by Miss Dorothy Kirk. The home of Mr. Campbell was prettily decorated for the occasion. Green and white was the color scheme throughout.

The bride was dressed in white georgette and carried a beautiful bouquet of white gladioli.

The matron of honor was dressed in white georgette, and carried a bouquet of pink gladioli.

After the ceremony an ice course was served by the hostess, Miss Catherine Campbell, assisted by her aunt, Mrs. J. T. H. Lipscomb of San Antonio, Texas, and Miss Opa Garrett of Shawnee.

Dr. and Mrs. Shirk will remain in Holdenville for the present, taking their vacation and wedding trip in July, when they will visit relatives in Missouri and Iowa and attend the World's Fair at Chicago. They will return to Holdenville and make their permanent home, and will be at home to their

WASHINGTON COMMENT

It is said that recognition of Soviet Russia is near, so near in fact that the name of the first ambassador to the reconstructed land of the former czars has been mentioned. Communism is a hard thing for the average American to swallow, and recognition of the Soviet Republic means that the pill will have to go down, in spite of a foretime protests. The present is an appropriate season for anyone to try almost anything. Perhaps Russia's claim to notice is no more scandalous than the claims of other lands respecting the payment of their just debts.

A former bank president has been acquitted by a jury of cheating Uncle Sam out of about a million dollars income tax. Thus the matter is disposed of finally, and what he did was right. The government made a mistake in asking for so much. Let it be hoped that a judge, jury and good lawyer will arise, who will be able to read errors into the tax collector's demands upon those at the foot of the list.

William the Conqueror sailed across the channel from France, cleaned up the English, and took over the running of the country for keeps. England dislodged France from her holdings in North America. France helped the United States win freedom from England. The English and Germans trimmed Napoleon at Waterloo. The Americans, French and English made things hot for Germany in the World War. According to latest reports, France is trying to form a coalition with England to whip the American dollar. Why look for amusement in such simple things as jigsaw puzzles when there are international relations to figure out?

The names of three Washington men are said to be on the roll of those hoarding gold. Who would have supposed that there were that many persons in the capitol city who preferred private gain to public welfare?

A good job for the Pennsylvania chap who has sixty-one letters in his name would be to set him at work signing tickets for overtime parking.

Two Spanish aviators, engaged in a flight overseas, have been found dead in a Mexican swamp, entangled with the wreckage of their machine. The writer who first used the term "hop" to designate a journey across the Atlantic in a plane, hit upon an attractive word, but events indicate that he was just a little ahead of the actual development of air transportation.

The Fourth of July is a big day, for a well-known reason, but things other than the adoption of the Declaration of Independence happened on that date. On the fourth of July 1828, the building of the first passenger railroad in the United States was begun, and in 1833 the hymn America was first sung in public, at a festival in Boston. It was the birthday of Nathaniel Hawthorne in 1804, and of President Coolidge in 1872. On the fourth in 1826, Presidents Adams and Jefferson died, and President Monroe in 1831. In 1848

the treaty of peace between the United States and Mexico was signed. Slavery was abolished in the State of New York on Independence Day, 1827. The thin line of surviving veterans, Union and Confederate, can remember as far back as 1863, and connect the battle of Vicksburg with the date under consideration. In 1917, Col. E. L. Stanton in an address at the tomb of Lafayette, spoke the famed words: "Lafayette, we are here," often attributed to General Pershing. Incidentally, two hundred persons were killed by fireworks and firearms in celebrating the Fourth in 1932. The score for 1933 is not yet of record.

A literary man, on a visit to Washington, says that he is the most conceited person in America. His announcement, made so soon after the college commencement season, puts him in a class in which there is plenty of competition.

The string of States voting down the Eighteenth Amendment continues to lengthen. Future historians, however, will have the task of deciding whether the wet vote of the present time indicated a wholesale desire to get soured, or simply disgust with the bootlegger.

The earliest form of writing seems to have consisted of drawing rude pictures for the purpose of conveying information, particularly to one expected to arrive at the picture later. Greek records tell that a few bundles of parsley once threw a whole Greek army into panic. It seems that parsley was in those days strewn by the Greeks around the tombs of their dead, and the connotation was too much for them.

MISSOURI HISTORY

Courtesy Missouri Historical Society

(Floyd C. Shoemaker)

Face to face with one of the greatest crises in the history of St. Louis, the citizens of the Missouri metropolis paused in the midst of the great cholera epidemic of 1849 to observe July 2, as a day of "fasting, humiliation, and prayer". The anniversary of that date, eighty-four years ago this week, recalls the time when deaths at St. Louis from cholera sometimes reached 160 a day, and during some weeks more than 600 persons died from the disease. So it was on July 2, 1849, business was suspended, and the Church doors were thrown open to public worship.

It was only after the epidemic had gained fearful momentum, that St. Louis realized the folly of months of public apathy and official inaction. Cholera had made its appearance late in the year 1848, but had subsided. With the coming of spring, however, the disease broke out with increasing fury. By the early part of May, it had become epidemic, and although the City Council and the board of health made efforts to check the spread of the disease, nothing they did seemed to help.

The year 1849 witnessed the movement of great waves of emigration in America, particularly in western States such as Missouri. Gold had been discovered in California, and thousands of Americans were on their way to the West. In addition to the American emigrants, there were those who were arriving from Europe, many of them to make their homes in the Mississippi Valley or to join the Mormons at Salt Lake. English and German emigrants were the most numerous of those foreign people who passed through St. Louis.

The main source of cholera infection for St. Louis seems to have been New Orleans, where many of the emigrants landed. Many of them weak from a long ocean journey, and suffering from diseases, these emigrants were loaded onto steamboats and brought up the Mississippi river. Some died on the boats, and others succumbed after arriving at St. Louis. It was later estimated that at least three-fourths of the cholera mortality at St. Louis was confined to emigrants from foreign countries.

By the latter part of June, St. Louis was almost panic-stricken in the face of the growing epidemic. Many city officials had worked strenuously to check the cholera; others had fled the city. On the 25th a great mass meeting was held resulting in the appointment of a Committee of Public Health composed of twelve leading citizens. This Committee, led by Thomas T. Gantt, virtually replaced the city government for the duration of the epidemic.

Measures recommended by the Committee, and later passed by the City Council, gave the Committee the power to make and enforce health rules, and appropriated \$50,000 for the work. Schools were converted into hospitals; inspectors for every city block were appointed to see that their areas were cleaned; and removal of all refuse was provided for. The same day the city observed a day of fasting and prayer, plans were being made to establish a quarantine where all steamboats from the lower river might be inspected.

Only July 3, the quarantine was established, and a site was selected on Arsenal Island below the city. Here all boats were stopped and inspected, and the sick removed to the island where quarters were erected for them. Deaths on a terrific scale continued until about the middle of July, when a marked decline set in. At the first of August, the cholera had ceased to be epidemic, and on the evening of that day the Committee of Public Health was dissolved, having no further duties to perform.

Some strange belief and remedies were current during the epidemic. One editor explained that cholera deaths were "caused by cabbage", and for a while the council forbade the selling of vegetables in the city, because it was thought that they spread the cholera. The sanction of the Committee of Public Health was behind a plan to burn "stone coal, resinous tar and sulphur" in the streets throughout the city on the night of June 30, to "dissipate the foul air which has been the cause of so much mortality". The establishment of a quarantine was opposed by some physicians, because they argued that cholera was non-contagious.

Elsewhere in Missouri, as in St. Louis, the cholera struck terror in the hearts of people. Up the Missouri River, at St. Joseph, Weston, Kansas City, Independence, Brunswick, Jefferson City and other places, business was slowed up thru fear of the disease. For a time, the capital of the State was under quarantine.

Put Your Liver To Work--Make This Test

You can't feel well and strong unless your liver furnishes your stomach and bowels plenty of fresh bile every day. Without bile food doesn't digest properly—it just ferments and decays—constipation, gas, sour stomach, headaches and nervousness follow.

Don't be misled. Calomel, salts, pills, mineral waters, laxative pills, etc., have no effect whatever on the liver. There are only two generally

recognized substances which actually cause a sluggish liver to increase its production of bile. Sargon Soft Mass Pills contain both of them. Unless you have tried Sargon Soft Mass Pills you can have no idea of their effect—you feel stronger, healthier, happier—life and color return to faded eyes and cheeks—appetite and digestion improve rapidly. Only 60c for a full 30-day treatment. At your druggist, or write G. P. Willis, Inc., Atlanta, Ga.—(adv.)

State to Protect Big Spring

A retaining wall is to be built soon in Big Spring State Park in Carter County, which will protect Big Spring from threatened destruction. A 400-foot dam will change the flow of Current River away from Big Spring. Emergency conservation men located in Deer Run State Park will be used on the project which will protect the natural beauty of Big Spring which flows 643 million gallons of crystal water daily.

Four Thousand Quail Ready

E. E. Breisch of Windsor, owner of a game farm located in the Southwest section of Pettis County on State Highway No. 2, reports that he will soon have over four thousand young quail ready for sale and liberation. Mr. Breisch informs this department that he has greatly restricted the production of pheasants this year. The quail and pheasant hatcheries made by artificial means. During the three years that the game farm has been in operation, Mr. Breisch states, he has spent approximately \$18,000. The Game and Fish Department has been one of his best customers.

50,000 Trout at Montauk

Some fifty thousand three and five-inch Trout Fingerlings have been transferred from the State hatcheries at Bennett Spring State Park and Sequoia to the spring in Montauk State Park, located in Dent County, southwest of Salem. The baby trout will be used to stock Current River and other cold water streams in South Missouri.

Benard J. Scheve, game warden for District No. 22, a resident of Gasconade County, reports several arrests in one day of persons fishing without licenses and catching channel cat out of season. Warden Scheve also recently assisted in the arrest of a bandit who robbed a rural mail carrier near Union.

Manley G. McKinley of Unionville, District No. 3 warden, is making a systematic investigation of reports of fish and game law violations. Warden McKinley says he has received reports of farmer having had stock killed or injured by hunters who carelessly fired into livestock.

Law Fixes Length of Game Fish
The only game and fish law to survive the last legislature and receive the approval of Governor Park was the House bill which fixes new length limits on game fish. It will become a law July 24. The limits in the new law are: Bass, 8 inches; Crappie, 6 inches; Hensel Cat, 12 inches; Rock Bass, 6 inches; Trout, 8 inches; Jack Salmon, 12 inches. Measurements will be from the end of the nose to the tip of the tail. Violations of the law are made a misdemeanor. A part of the fisherman's kit in the future should include a twelve-inch gauge.

Moving down stream of sand and gravel bars has furnished bathers in the vicinity of Holter and Rockaway Beach, on Lake Taneycomo, with ideal beaches. Fishing has been greatly benefited too, according to news reports reaching the Game and Fish Department, eliminating mud with layers of sand and gravel favorable to propagation of game fish.

The capture of an alligator gar is reported near Risco, in New Madrid County, where Little River has overflowed its banks and covered a field. The monster fish is said to weigh 176 pounds, measuring seven and one-half feet in length. A high powered rifle was used to kill the long water animal. The fish has been mounted and will be sent to the Chicago Fair.

For the past several years it has been the custom of this department to issue a Weekly Report on Fishing Conditions throughout the State. This service has proven to be of much benefit to those who plan fishing trips. The first report of the season was issued last week.

Harry C. Shutte of Kansas City, a field man for the American Game

Association, last week caught an 18-inch 4-pound small mouth bass on the Nangua River, below Bennett Spring State Park, while on a float trip.

The recent catch of a 103-pound yellow catfish on Grand River, in Cass County is reported. The head alone weighed 14 3-4 pounds. This is the largest fish ever to be caught in Cass County, according to J. W. Sexton of Harrisonville.

The first deer to be seen in Pulaski County in forty years was viewed recently by J. R. Jackson near Big Piney. The deer, a full grown doe, was viewed by Jackson while plowing corn.

Lee Chiles, keeper of Meramec State Park, 4 miles east of Sullivan in Frank County, reports that over eighteen hundred people visited the park last Sunday. Mrs. J. P. Biggs, keeper of the historical Arrow Rock Tavern, east of Marshall, on Highway 41 also reports an increased number of visitors during the past week. Parkkeeper Frank Brockway, says the swimming pool and picnic grounds are quite popular during the heated weather. Other State parkkeepers report increased attendance.

The National Forest Reserve Association, a "land use project", was formed last week at a meeting of five counties held at Celadonia, in Washington County. Good of Salem was selected chairman of the association and R. E. Thielecke of Cuba, secretary. Counties included in the 125,000-acre forest tract are Crawford, Dent, Iron, Reynolds and Washington. The establishment of a federal forest reserve in this area will create a splendid game refuge forest reserve joining Indian Trail State Park in Dent County.

IS COTTON HAND THE ONLY 'FORGOTTEN MAN'?

RALPH MILLET
In Memphis Press-Scimitar I never thought I would live to see the day when the government would lend a farmer money to plant a cotton crop in the spring and then pay him to plow it up in mid-summer.

I never thought I would see a Santa Claus when the thermometer is flirting with 100 in the shade. But these are war times with a lot of things in reverse.

We are fighting depression, unemployment and surplus crops. I guess it is just as sensible to pay the farmer to plow up part of his crop to make the balance bring more dollars as it is to wad a thousand dollars' worth into a gun and try to kill a few human beings. Perhaps it is just as sensible as it is to blow up a building with dynamite to halt the progress of a fire that threatens to spread over an entire city.

The worst feature I see about the cotton plan is that it will give the cotton pickers less cotton to pick this fall, the gins and compresses fewer bales to handle. But one can't work out any plan that hasn't some drawbacks.

Of course, the theory is that the plan will make cotton go to 12 cents or more and that everybody will benefit from the resulting prosperity.

But my guess is that it will help the farmer more than it will the cotton hand—the landlord more than it will the tenant farmer. The cotton hand not only will get less work but the better times will cause the price of what he buys at the commissary to go sky high.

I have persuaded one of the contractors the government is going to make with the farmer, but I'll bet a cookie that there is no clause in it providing for higher wages or shorter hours for the cotton picker.

He probably is the forgotten man—forgotten even by the President. During the World War the government had a representative on each draft board to see that justice was done to the government and individual.

If a decision didn't look right to him, he could appeal it, and often did.

I think the lowly cotton picker and tenant farmer ought to have a special representative on every committee to see that he gets justice both as to wages and in the settlement he makes with the landlord. If precautions are not taken, we are going to see human nature work overtime this summer and fall.

But as a whole, the goose at Washington, if you want to call the scheme a goose, is about to lay a golden egg for the South. If the plan goes through—and it will—millions of dollars in cold, hard cash is going to be dumped in here right in the middle of the summer when we have had no money coming in.

What a break for the Chicago World's Fair! What a break for the automobile people and the gas station! "But what about next season—won't every backyard be planted in cotton for the government to buy?" folks asked me.

"Well, I reckon that if I were drowning in the Mississippi and a guy threw me a plank—I wouldn't say: 'It's all right this time, but next year you're going to be hanging 'round next year when I go swimming?'"

Of course, next year—and the year after—will have their problems; but that is next year. What we want is Santa Claus this year.

And, by gum, he's coming—right in mid-summer—and he's going to take us all to the World's Fair, and the guy who blows his nose on a cotton handkerchief is going to pay the bill.

Can you beat it?

Of course, you can't beat a gold-egg.

PERTINENT PARAGRAPHS FROM THE PARIS APPEAL

The New Deal should include a new deal for grafters. Any official who robs the Government while it is trying to save millions from starvation should be declared guilty of treason and shot at sunrise.

Reports from Detroit are to the effect that the Ford Motor Company's surplus is only \$580,440.602.54. Even at that, Uncle Henry and Edsel may be able to worry along. A surplus like that would look like all the money in the world to our Uncle Sam.

Will Rogers says he will never

believe any of these international marriages are inspired by love until one of those European noblemen marries an American girl who has no money. But Will is wrong. Love always figures in such matches—the love of the heiress for a title and the love of the count or prince or duke for her millions.

We sometimes think too much blame for miscarriages of justice is placed on lawyers and judges and too little on juries which render the verdicts. Seven juries out of every ten are the wrong sort. This is because an intelligent man who may have heard of the case is always waived aside in favor of an ignorant man who has not. The

more ignorant the juror the easier it is to play on his prejudices and passions, thus influencing him into decisions that are not based on facts that were developed. The cause of justice would be promoted by trials before judges or by prescribing more reasonable qualifications for places in the jury box.

Our Research Department is ready to report on the awful expense to which teachers are put in attending college or university during the summer term. Out of 973 cases that were investigated our specialists, headed by Dr. Bildad Botts, found that exacting boards had required 76 to either get more credits or lose their jobs. The other

897 teachers had enrolled for further instruction because they were of the opinion that just anything beat staying at home. Of this 897, sixty-seven per cent had boy friends in towns where they enrolled. Twenty-seven per cent were attracted by the nice surroundings their landladies maintained. Three per cent were actuated by an earnest desire to come nearer earning their salaries. Ninety-nine per cent of the teachers were girls in their teen age, ninety-five per cent of whom expected to quit teaching just as soon as they could get something else to do. The conclusion reached by Dr. Bildad Botts and his efficient corps of experts was that

too much sympathy is wasted on those who attend summer school, the idea being that most of them would need more sympathy if they had to stay at home.

A high-toned lady in a big car yesterday stopped at the store to ask the way to Tickville. Ellick Helwanger said she had with her some sort of a black, squeaky insect which she called "Fid". Ellick has asked the Wild Onion School Teacher to look it up in his bug book.—Commercial Appeal.

FUTURE GROWTH OF SIKESTON DEPENDS UPON THE COOPERATION OF ITS OWN CITIZENS

Prosperity, so far as Siketon is concerned, will begin to show its head above the depression level when merchants, lawyers, doctors and citizens generally begin patronizing local enterprises and industries.

By local enterprises and industries, we mean those which are established here, the ones that pay taxes, wages, etc.

A great deal of money that is being earned in Siketon is finding its way into trade channels that end in other cities.

Siketon is located in one of the richest agricultural sections of the country. Siketon has always maintained her leadership among the cities of this part of the nation as one of the most progressive cities through her years of civic and commercial activities. Ever, prospective purchaser of merchandise or professional services, is actually in need of merchandise or services. Three years of depression talk has reduced prices to the minimum. It is a matter of restoring confidence and realizing that Siketon is the logical trading center within a radius of fifty miles.

COST OF TRADING AWAY FROM HOME

But, first we must be sold on Siketon. Sell the "buy it in Siketon" spirit to yourself and family, as well as to your neighbors. Suppose that the needed article does cost a few pennies more—consider your cost of transportation of going to and returning from the other trading centers, including your other miscellaneous expenses.

On the general average every commodity is as reasonably priced here in Siketon as in any other trading centers. The selection is surely as large, and by trading at home, your local merchants are encouraged to add to their stocks.

RETURN PROSPERITY QUICKLY

If every citizen of Siketon and its environs would purchase all of his or her necessities in this community, prosperity would return very quickly indeed, therefore, it is incumbent upon every citizen to do his or her part—and, "buy at home" BEGINNING TODAY.

DEBUNKING THE BUNK

There is a vast amount of unadulterated "bunk" being thrown around the current discussion of "balanced budgets".

There never can be a justification of waste in the operation of any business, whether it be any department of the government or privately owned. We cannot make a case for useless construction, just to create employment.

But there is one argument to be used in behalf of balancing our budgets at all costs that will bear discussion. It is said on all sides that we must balance our budget in order to preserve our credit as a nation.

We must submit that the one thing that will surely fortify our credit in this nation of American business, is the revival of popular purchasing power.

If this is true—and we are sure that it is—then every proposal for tightening up on the purse strings, should be considered in terms of what it will do to help or hamper this purchasing power at a time when business suffers a serious retardation, for the reason that private spending is at low ebb.

WHAT YOU SHOULD DO

Do your part as a booster for more business, more prosperity and good times by buying now, when your dollar is worth possibly 80% more than it has been in the last ten years.

It has been proven possible to experience an economy hysteria as well as an extravagant one. In other words, it behooves us to be careful lest we lose our heads and launch out false and futile economies that will actually cancel the heroic efforts of the business, professional and civic minded men and women who are putting forth every effort to stimulate economic enterprise and hasten the return of better times, and those whom you find listed with this editorial are spending much time and money to bring business conditions back to normalcy. BUY TODAY—DRIVE DEPRESSION AWAY.

AUXILIARY NOTES

The regular meeting of the American Legion Auxiliary was held at the home of Mrs. Kathryn Johnson Wednesday evening with a good attendance. After the report of committees were given, a social hour was enjoyed. Between sixty and seventy patients and their children enjoyed a Fourth of July picnic on Castor River, near Fredericktown. These annual picnics are very enjoyable affairs and are always looked forward to, especially by the children of the Legionnaires.

WYATT FARMER SHOOTS NEGRO AT CORN WAGON

Claude Pratt, 42, a negro, of near Wyatt, Mississippi County, is in a serious condition at Southeast Missouri Hospital from gunshot wounds which he said he sustained Tuesday "while getting some corn from a wagon on a farm near my home."

Pratt brought to the hospital by a Mississippi County deputy sheriff, fainted from loss of blood when he reached the hospital. Shortly afterwards his left arm was amputated above the elbow and Pratt had rallied sufficiently to tell something of the shooting. Physicians expressed belief he will recover, barring development of infection.

At the hospital Pratt told a reporter he left his house early today, before daylight, and went to a farm owned by a white man by the name of Gallagher. "I wanted to get some corn to feed my chickens and didn't have money to buy any, so I thought I would just get a little bit. The corn was in a wagon near the hog lot and when I climbed up on the wagon a man came up and began shooting at me," he said.

Pratt said the man a white

man, was only about 10 feet from him when he fired one shot and said he fired several other shots at him as he ran. The negro expressed belief the weapon was a Winchester rifle. The first shot splintered the bone in his left arm, Pratt said. He ran home and then gave himself up to officers, who brought him here.

Pratt admitted trying to take the corn from the wagon, but said this was the first time he had done so. He said he had bought corn at this farm on previous occasions more than a year ago. The negro is married and has a wife and six children, three boys and three girls, the youngest 11 years old.—Cape Missourian.

GRABER STORES HAVE NEW BURGLAR ALARM

Workmen have been busy this week installing an all electric, efficiency burglar alarm in the local Graber Store in an effort to check any possibility of theft. The alarm is one of the newest systems, giving full protection including plate glass, and is being installed by Sentinel Protective Service of Vandalia, Ill., with D. W. Yeager in charge of the installation.

Similar systems are being installed in the Graber Stores of Kennett, Cardwell, St. Louis and Corning, Ark. Mr. Graber stated Thursday that "we are going to make the thieves earn an honest living as far as we are concerned". Work in the Sikeston store is expected to be completed the latter part of the week.

NEW MADRID COUNTY ASSESSOR DIES THURSDAY

New Madrid, July 6.—Will Moyland, 40 years old, of Portageville, passed away at his home at 1:00 o'clock this morning, after an extended illness for the past several months of tuberculosis. Mr. Moyland was last fall elected deAssessor of New Madrid County, and had been physically unfit to fill the position during most of the time he served.

Funeral services were conducted at his home this morning, with burial in the Portageville Cemetery.

Mr. Moyland is survived by his father, John Moyland, with whom he made his home.

Sap Spradlin spent a good part of Sunday afternoon figuring how he would spend an unexpected legacy of \$107.4 from a long-lost and rich old uncle off yonder—provided he had an uncle and the old coot had remembered Sap in his will.—Commercial Appeal.

Most people are very pleasant as long as you don't try to collect.

Jellied Vegetable Salad

The jellied salad described is a combination of different vegetables in a binder of lemon flavored gelatin. The small individual molds make the salad plates especially attractive, but a ring or other fancy single mold might be used if the salad is served from a platter. While the blend of flavors selected is exceptionally good, other vegetables could be added or substituted, and the gelatin mixture could be made of meat stock stiffened with plain gelatin.

Jellied Vegetable Salad

1/2 cup lemon jelly powder
2 cups boiling water
1/2 cup diced cooked turnips
1/2 cup chopped celery
1 cup cooked green peas, fresh or canned
1 No. 1 can red kidney beans
1/2 teaspoon salt

Dissolve the jelly powder in the boiling water and set aside to chill. When the mixture begins to stiffen, add remaining ingredients. Mix carefully so as not to break the vegetables. Turn into small individual wet molds, or a single mold, and chill. Remove to a bed of lettuce or endive. Garnish with mayonnaise dressing.

If prepared lemon-flavored gelatin is not available, make a pint of lemon jelly by mixing 1 tablespoon

of plain gelatin with a half cup of cold water, then dissolving in 1 1/2 cups of boiling water. When cool add 2 tablespoons lemons juice. In very warm weather add an additional half-tablespoon of gelatin.

Fish Baked in Milk

Sometimes the leaner fish, such as halibut or haddock, seem a little dry after cooking in the usual ways. To avoid this, and also to enrich the dish by adding milk, the following recipe is recommended. The sliced onion enhances the flavor for most persons. If desired, evaporated milk, reconstituted in the usual way, may be used, or dried milk.

Fish Baked in Milk

1 1/2 pounds haddock or other lean fish
Salt
Pepper
1 tablespoon flour
1 large onion sliced very thin
1/2 cup crushed crackers or bread crumbs
1 1/4 cups milk

Clean and wipe the fish with a damp cloth. Cut in pieces for serving and sprinkle with salt, pepper and flour. Put the pieces of fish in a single layer in a shallow greased baking pan. Cover the fish with the onion and then sprinkle with the crushed crackers or bread crumbs. Add sufficient milk barely to cover. Bake in a modern oven

(350F) from 40 to 50 minutes. If the crackers or crumbs do not brown in that time, put the dish under the flame of the broiling oven.

The cowboy and cowgirl movies are even more popular in Eastern Asia than on the east side of New York.

Many people admit that honesty is the best policy but the sad commentary is that it often takes an inquiry to make them realize it.

The tactful Mexican artist who painted Lenin on the Rockefeller building would probably paint Luther on the walls of the Vatican. The chap who asked for exemption from paying an income tax because he had fallen arches reminds us of the fellow who stopped going to church because the electric lights were taken off the wall and suspended from the ceiling.

The greatest miracle that I know of is my conscience. And if God has been able to work that one, there are none of which He is not capable.—Vinet.

It is not because men like to fish so well but because they are cleaning house at home.

Before the government guarantees all bank deposits it might be well for congress to pass a bill compelling all men to be honest.
